The first four documents are the public submissions on the August 27 Federal Register.

The fifth document is the Federal Register, document EPA-R06-OAR-2016-0611-0127.

According to the Federal Register, a public hearing will be held Wednesday in Austin.

Contact me if you have any questions about this docket – I made a mistake when I posted the support documents for this Federal Register.

Some of the documents I posted were not OCR'd. I posted again the OCR'd version of the same documents with the same Deese TX187 numbers.

This is the reason the Deese TX187 numbers for the four public submission documents are not the same as the last four digits of the document IDs.
